

## AMENDMENTS TO THE ABSTRACT:

Please replace the Abstract with the following rewritten version:

“The invention relates to a handling system ~~(1)~~ for lifting and/or moving a person from a first position to another. The system ~~comprises~~ includes a frame ~~including having~~ a base frame ~~(2a, 2b)~~ and a lifting frame being part of a lifting device for ~~said the~~ person. The system also ~~comprises~~ includes at least three wheels ~~(3a, 3b, 4a, 4b)~~ positioned in different parts of ~~said the~~ base frame and allowing the handling system to be moved over a surface from said first position to another, and at least one user interface allowing ~~said the~~ person or another person to control the handling system. Further, the system ~~comprises~~ includes at least one of ~~said the~~ wheels ~~(3a, 3b)~~ being directional controllable from ~~said the~~ at least one user interface and each of ~~said the~~ wheels ~~(3a, 3b, 4a, 4b)~~ being mounted pivotally around a vertical axle ~~(va1)~~ for said of the wheels.

The invention also relates to a user interface and a method of handling a person.”
